## Model: 11/15HR

The model 11/15H is manufactured to meet the demand for small high quality gauges designed for applications using gases, water or any liquid that does not attack brass, bronze or Stainless Steel

The one piece polycarbonate case with integral window forms a solid baffle in front of the Bourdon tube and incorporates a full diameter stainless steel blow-out back so that in the event of a tube failure through corrosion, explosion or gross over pressure any vapour or debris is vented from the back of the case.

This gauge is designed for fitting into a panel, and is held in place by a screwed plastic clamping ring which screws around the outside of the case providing very easy fixing. The transparent front flange assumes the colour of the panel.

For oxygen applications these gauges must be manufactured to ensure they are entirely free from oil and grease.

### Size

63 mm & 80mm Dial diameter

### Mounting

Flush or Direct Rear mounting. (15HR & 11/15H)

### Case & Bezel

One Piece Polycarbonate, Safety Pattern case

### Scale Ranges

Above 60 bar up to 700 bar  
Equivalent units of pressure / vacuum available  
Single and dual scales are available

### Pressure Element

316 Stainless Steel helical coil brazed to the body and with welded end piece

### Overload

115%

### Pressure Connection

1/4" BSP as Standard  
1/8" & 3/8" BSP & NPT are also available

### Accuracy Class

CL:1 1.0% of FSD as defined in EN837-1

### Temperature

Operating: -20 to +90 °C  
Storage: -40 up to +100 °C  
Options: for lower or higher operating temperatures, please contact our Sales Office

### Temperature Effect

Variation in indication caused by temperature shall not exceed  $\pm 0.04 \times (t_2 - t_1)\%$  of the span where:  
t1 is the reference ambient temperature in degrees Celsius  
t2 is the ambient temperature in degrees Celsius

## SMALL DIAL - HIGH PRESSURE INDUSTRIAL SERVICE GAUGE

### Dial

White Anodised Aluminium marked in black finish  
Option: Dual scale, colour bands & sectors  
Customisation with Company Name & Logo also available

### Pointer

Stainless steel coloured black

### Movement

Brass Construction  
Option : Viscous Damped movement to overcome the effects of minor pressure pulsations and vibrations

### Window

One Piece Polycarbonate

### Environmental Rating

IP54 as defined in EN 60 529

### Traceability

All instruments are individually calibrated and have a unique Serial Number printed on the dial. A Certificate of Conformity Traceable to National Standards is Supplied Free of Charge

### Certification available

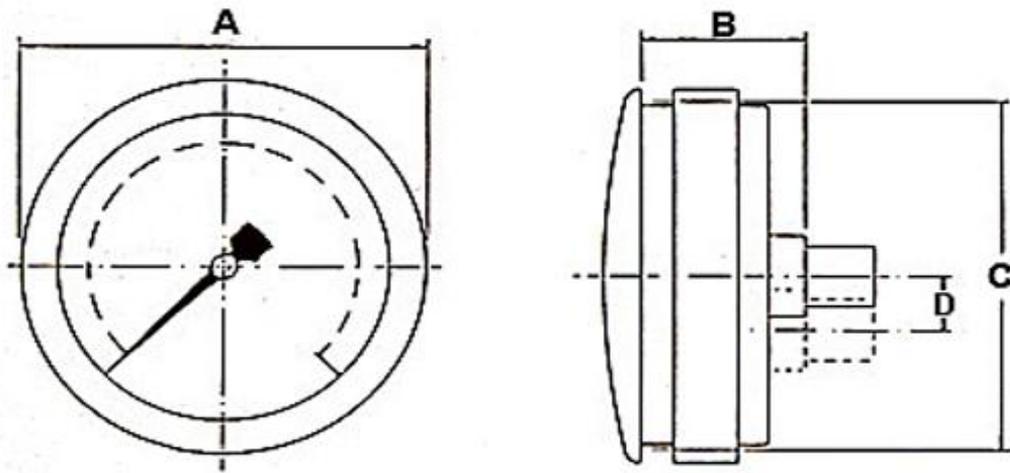

BS EN 10204 3.1B Material Certification  
Point by Point Test Certificate

### Safety

All units are manufactured to comply with EN 837-1, S3 specification and other regulatory standards including PED.

### Installation Instructions

Refer to EN 837-2

Model No	A	B	C	D	Weight
63mm Polycarbonate Case	68mm	40mm	63mm	13.5mm	0.2kg
80mm Polycarbonate Case	94mm	38mm	87mm	13.5mm	0.3kg

**Options**

- Case : Customer Name or Logo
- Mounting : See other Datasheets for various mountings
- Threads : NPT available
- Dials : Colour sectors

**Accessories**

For high temperature applications such as steam, see our range of syphons and adaptors. – See separate Datasheet.  
 Brass shut off cocks
